

EXPLANATION OF RELEASE OF INFORMATION FORM

If you have a relative who is already enrolled with the Sault Ste. Marie Tribe of Chippewa Indians fill out a release of information form, then you will only need to submit the documents which prove your relation to that person. For example, if your parent or sibling fills out the release form then you need only to submit the document listed in #1 (on next page). Or, if your first cousin, aunt, uncle, or grandparent fills out the release form, submit only the documents listed in #1 and #2. And so on. (The more distant the relative is, the more documents required).

If the person who fills out the release of information form does not have all of the documents required to process your membership, then it will be mandatory that they submit all the documents requested by the Tribal Registrar before they can renew their membership card. You will also be required to submit the documents before any further research can be done.
